LAP CO

SERVING THE AUTOMOTIVE
AFTERMARKET WORLDWIDE

NEW CUSTOMERS

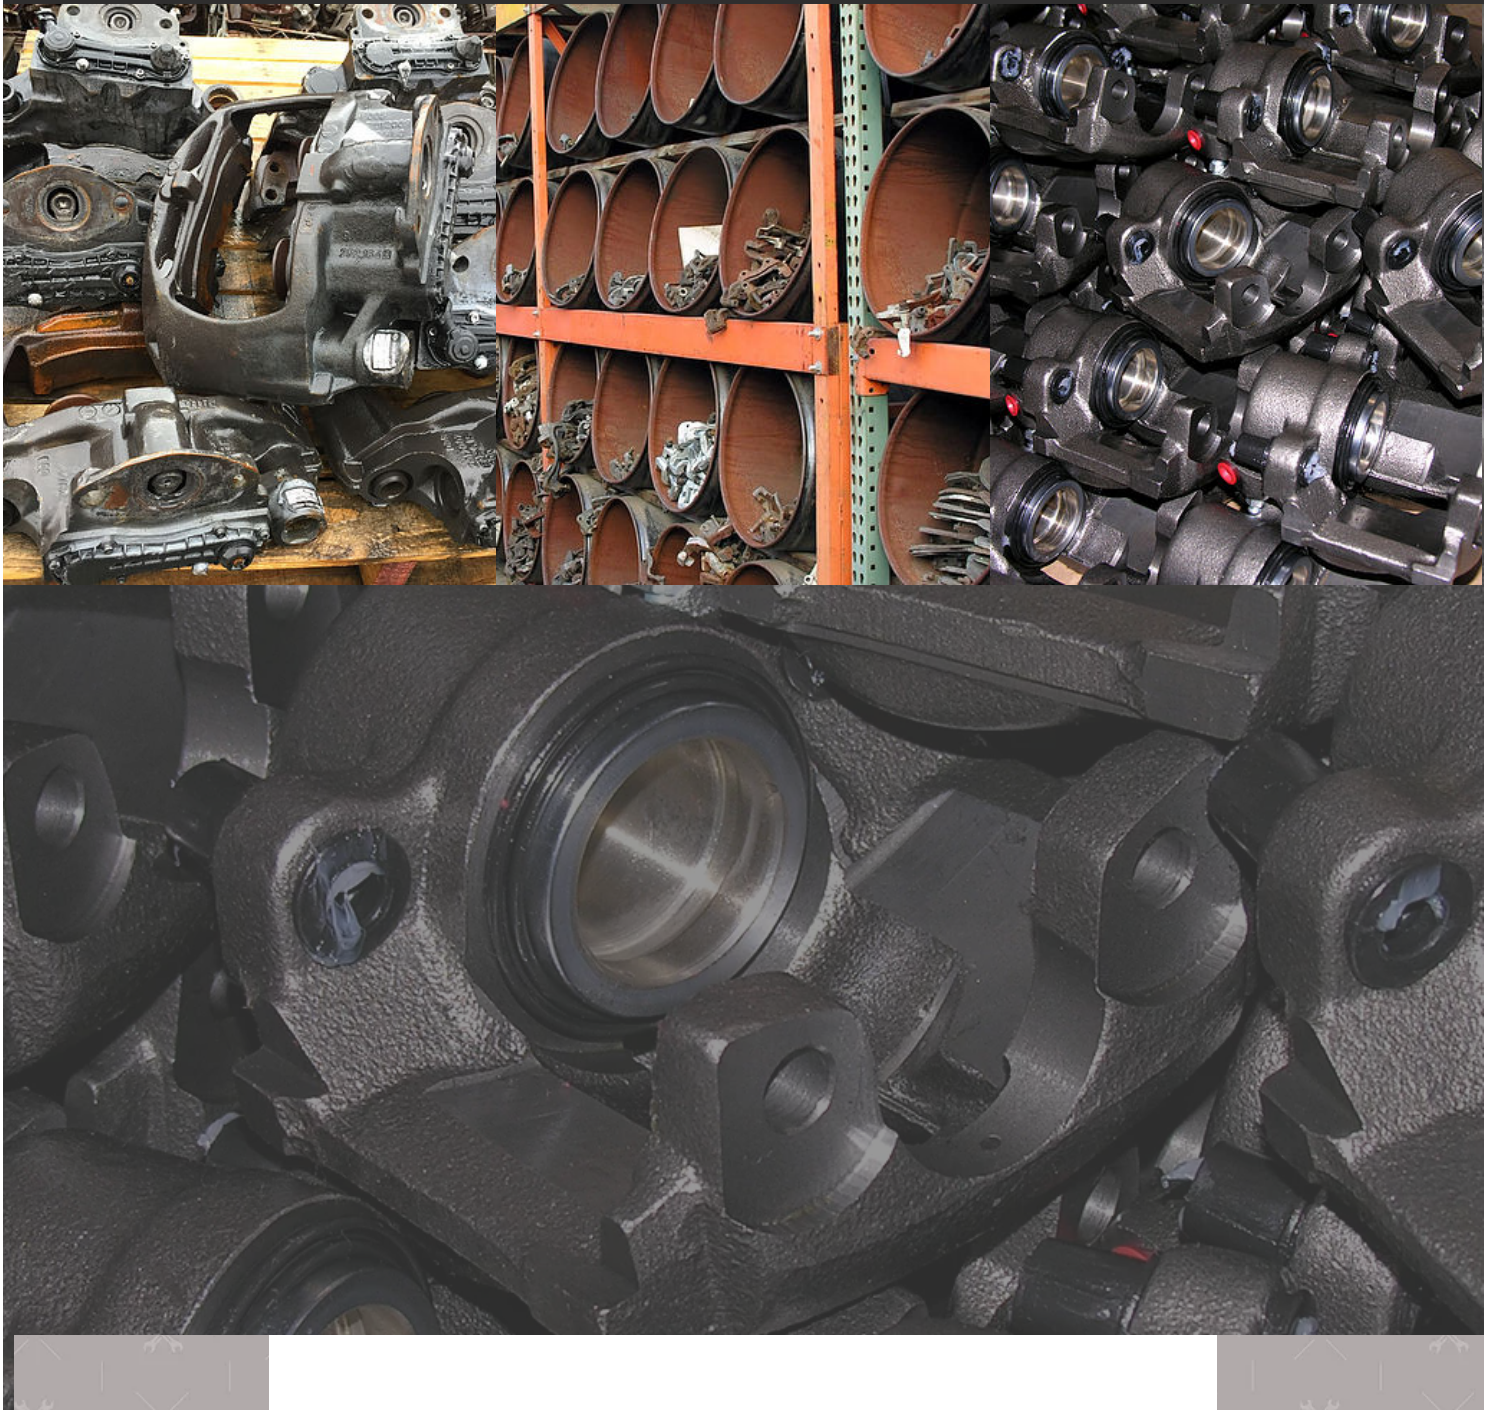

We would like for you to email us a brief note telling us about your company.

Currently, we are only servicing Automotive Caliper Rebuilders and Medium Duty Caliper distributors.

If you are a WD or Jobber or large chain we would be happy to recommend a rebuilder that could fill your need.

I am sorry but at this time we are not servicing the retail trade.

Please email us at lapco.sales@gmail.com with some information about your needs. We are looking forward to hearing from you.

ABOUT US

LAP CO is a company that specializes in supplying the highest quality brake caliper products to the Automotive and Medium Duty Truck aftermarket.

We target the large and medium sized brake caliper rebuilder as our customer base. This market supports our ability to provide a level of service and quality that we believe will be superior to our competition.

with the distinction of being one of the only core suppliers in the world to have this credential. Through the help of our customers, we have continued to strive for continuous improvement in production and service and pricing.

With over 25 years in supplying the aftermarket with brake calipers our approach is to offer a one stop shop experience. We offer brake caliper cores, brake caliper castings, brake caliper mounting brackets, brake caliper assemblies with brackets and brake caliper assemblies without brackets. We distribute brake caliper cores, OE new brake calipers as well as our own line of remanufactured brake calipers. Our new aftermarket calipers are manufactured by us using castings and components from the sources that we developed from the beginning of 1992.
